

## ISTITUTO COMPRENSIVO “E. GIANTURCO“, STIGLIANO, ITALY

### INSTRUCTION FOR “PRISONER BALL”

#### Equipment and rules:

- *Numbers of players : unlimited*
- *Two teams*
- *A captain for each team*
- *Playground divided in two parts by a line*
- *A ball (volley ball)*

#### How to play the game:

All children sing a nursery rhyme to choose two captains. Then the captains call one after the other children to form their own team. Then they choose the half-ground where they want to play and draw for the first player who must throw the ball. So the game begins.

If the ball falls down in the opposing half-ground, a player of the 2° team must throw the ball.

If the ball is caught by an opposite player, the thrower becomes “prisoner” in the opposing team.

His playmates are going to throw the ball to him in order to make him free, and, if he can catch the ball, he is free and returns in his team. If a player is imprisoned twice or touches the opposing half-ground by his foot, he goes out of the game.

The winner team is the one that imprisons all opposing players or has the most prisoners in an established time.
